

Ground Rules for MA 16100, Summer 2024 (on-campus)

Course webpage: [MA 16100 Summer 2024](#)

Course Calendar: Available on the course webpage.

Learning Resources:

- Textbook: Calculus, Early Transcendentals, Third Edition by Briggs, Cochran, Gillett, and Schulz; published by Pearson.
- MyLabMath is required. Students will use it to do online homework and instructors will use it to record all the scores. Here is the [Student Guide to MyLabMath](#).
- There is a two-week grace period before you must purchase an access code.
- A digital version of the textbook (eText) is included in Pearson MyLabMath, and a hard copy of the textbook is not required.
- Students should access MyLabMath through their [Brightspace](#) page.
- Students are expected to check the Brightspace page and emails regularly for announcements.

Homework:

- Online homework assignments are on MyLabMath and are accessed through the course Brightspace page.
- The homework schedule is available in the course calendar.
- Except in cases of University approved reasons, late homework will not be accepted.
- Instructors should not assign or collect any assessments, including homework during the Quiet Period (July 28th–July 30th).
- At the end of the semester, the lowest 5 online homework scores will be excused.

Quizzes:

- There are a total of 10 in-class quizzes written by your instructor. Please see the course calendar on the course webpage for the dates.
- At the end of the semester, the 2 lowest quiz scores will be dropped.

Examinations:

- There will be two, one-hour, midterm exams. Please see the course calendar on the course webpage for the dates. Midterms will take place in class.
- There will be a two-hour, comprehensive final during exam “week”, July 31st–August 2nd. The time and location will be announced later.
- You are not permitted to use calculators, books, notes, electronic devices, websites, or to consult a peer or any other person on the exams.

Piazza:

- This is the main resource to get help for online homework, lectures or any other course-related questions.
- Click on the link in Brightspace or [Signup Link](#) to enroll in the Piazza page for this course.
- Questions asked after 8 p.m. are not guaranteed to be answered the same day.

Grades:

Course grades are plus/minus and will be determined from your total score which will be computed as follows:

Homework	20%
Quizzes	10%
Two midterms	40%
Final Exam	30%

The cutoff for each letter grade will be **no higher** than the following:

A+	97%
A	93%
A-	90%
B+	87%
B	83%
B-	80%
C+	77%
C	73%
C-	70%
D+	67%
D	60%

If there are some changes on the grading scale, the changes can be determined only after the final exam scores are available.

Email Policy:

For any queries regarding course schedules, grading disputes, or technical issues, please reach out to your instructor/TA via email initially. If they are unable to provide a resolution, your email will then be forwarded to our overall course coordinator, Ping Xu. As a general guideline, refrain from contacting Dr. Xu directly until you have communicated with your TA first.

Important Dates:

- Classes begin on Monday, June 10th
- No class on July 4th
- Quiet Period: July 28th–30th
- Final Week: July 31st–Aug. 2nd
- Grades due by 5PM Tuesday, Aug. 6th
- Students should consult [Add/Drop](#) regarding the last days to add or drop a class.

Accommodations for Students with Disabilities:

Purdue University strives to make learning experiences accessible to all participants. If you anticipate or experience physical or academic barriers based on disability, you are encouraged to contact the Disability Resource Center at: drc@purdue.edu or by phone: 765-494-1247. In this mathematics course accommodations are managed between the instructor, the student and DRC Testing Center. If you have been certified by the Disability Resource Center (DRC) as eligible for accommodations, you should contact your instructor to discuss your accommodations as soon as possible. Here are instructions for sending your Course Accessibility Letter to your instructor: <https://www.purdue.edu/drc/students/course-accessibility-letter.php>. Information about summer exam procedures can be found at <http://www.math.purdue.edu/academic/courses/ada/>.

Academic Honesty:

Academic integrity is one of the highest values that Purdue University holds. Individuals are encouraged to alert university officials to potential breaches of this value by either emailing integrity@purdue.edu or by calling 765-494-8778. While information may be submitted anonymously, the more information that is submitted provides the greatest opportunity for the university to investigate the concern.

Purdue prohibits academic dishonesty. According to University policy cheating, plagiarism, lying and deceit in any of their diverse forms (such as the use of substitutes for taking examinations, the use of illegal cribs, plagiarism and copying during examinations) is dishonest and must not be tolerated. Moreover, knowingly to aid, abet, directly or indirectly, other parties in committing dishonest acts is in itself dishonest. If found guilty of academic dishonesty, possible penalties can range from receiving a zero on the assignment to expulsion from the University. For more details about the Purdue policy on academic dishonesty see <https://www.purdue.edu/odos/osrr/academic-integrity/index.html>

Students caught cheating on an exam will get a zero on the exam and may get F in the course. All cases of cheating will be reported to the office of the Dean of Students. Students are encouraged to report to their professor if they have knowledge that other students have cheated on exams, and the more evidence they can present the better. Students can also report issues of academic integrity that they observe anonymously, through the OSRR by calling 765-494-8778 or emailing integrity@purdue.edu.

Attendance Policy:

This course follows Purdue's academic regulations regarding attendance, which states that students are expected to be present for every meeting of the classes in which they are enrolled. For details, see the [Academic Regulations and Student Conduct](#) section of the University Catalog website. Absences outside of those covered by the University's excused class absence regulations are at the instructor's discretion. Purdue expects each student to be responsible for class-related work missed due to an unavoidable absence. Students should contact their instructors directly to discuss the absence and opportunity to complete missed coursework. This work may be made up at the discretion of the instructor.

Nondiscrimination Statement:

Purdue University is committed to maintaining a community which recognizes and values the inherent worth and dignity of every person; fosters tolerance, sensitivity, understanding, and mutual respect among its members; and encourages each individual to strive to reach his or her potential. In pursuit of its goal of academic excellence, the University seeks to develop and nurture diversity. The University believes that diversity among its many members strengthens the institution, stimulates creativity, promotes the exchange of ideas, and enriches campus life. For more information, please see [Purdue's full Nondiscrimination Policy Statement](#).

Campus Emergency Information:

In the event of a major campus emergency, course requirements, deadlines and grading percentages are subject to changes that may be necessitated by a revised semester calendar or other circumstances beyond the instructor's control.

Online Course Evaluations:

You will be provided an opportunity to evaluate this course and your instructors. You will receive an official email from evaluation administrators with a link to the online evaluation site. Your feedback is vital to improving education at Purdue. We strongly urge you to participate in the evaluation system.
