

MA 22300 & 22400 FINAL EXAM INFORMATION

The Final Exam is scheduled for **Wednesday, May 7, at 8:00 AM** in **Elliott Hall of Music**. The Final Exam is a 2-hour exam. Your assigned seat from me will be emailed to you Tuesday evening, May 6.

The final exam is a 175 point, comprehensive, multiple-choice exam. There are 25 questions on the exam and two hours to complete it. The only formulas provided are those listed on the formula sheet on the course web page.

****Bring photo i.d.** to the final. Without it, you may not be allowed to take the final. You will need to code your ten-digit Purdue i.d. number and your section number on your answer sheet, to be sure your score on the final exam is recorded correctly. Your instructor will announce this four-digit number at the final.

Practice problems for the final are available on the course web page. However, do not focus solely on these problems to review. **Be sure to also look at all the homework problems**, the quizzes, your instructor's examples from class and the midterm exams from this semester and last Spring semester.

Remember to bring a one-line calculator to the final. We cannot share calculators at the final, and cell phones cannot be used as calculators. (Cell phones must be turned off and put away during the final.)

****There is no partial credit on the exam. However, you should circle your answers on the exam booklet itself. In the event that anything happens to your answer sheet, the exam will be used as a backup.** (However, note that no regrades will be allowed for miscoded answer sheets.)

****At the end of the Final Exam, you will turn in both your answer sheet and the exam itself.** If all goes well, final exam scores will be in Blackboard and exam letter grade estimates will be available via the course web page by late Thursday, 5/8. Semester course grades will be available in MyPurdue on Wednesday, 5/14, the week after Final Exams.
